SERVICE AND REGULATORY ANNOUNCEMENTS.

BUREAU OF ANIMAL INDUSTRY.

MAY, 1922.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5centseach, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

 (b) Deduct one day's pay for absence on the 30th and 31st.
 (c) Deduct two days' pay for absence on the 31st and any other one day between the 1st and 29th, both inclusive. (d) Deduct one day's pay and fraction for absence on the 31st and fractional
- part of any other day between the 1st and 29th, both inclusive.

 (e) Deduct only fraction of 30th for absence for fractional part of 30th and

all of 31st. 30-day month:

(a) Deduct one day's pay for each day's absence.

29-day month:

(a) Deduct one day's pay for each day's absence between the 1st and 28th, both inclusive.

(b) Deduct two days' pay for absence on the 29th.

28-day month:

- (a) Deduct one day's pay for each day's absence between the 1st and 27th, both inclusive.
- (b) Deduct three days' pay for absence on the 28th.

HOTEL RATES FOR GOVERNMENT EMPLOYEES.

The Bureau of the Budget has made arrangements by which certain hotels will grant a reduction of 25 per cent from their regular room rents to Government employees traveling upon Government business upon proper identification. In case official travel orders or other instructions are issued to the Government employee covering the particular trip in question, the presentation of such travel order or instruction will constitute sufficient identification for the period covered.

The hotels which have granted this reduction are as follows:

Waldorf-Astoria, New York, N. Y.

McAlpin, New York, N. Y. Martinique, New York N. Y.

The Knott Hotels, as follows:

Holley, Washington Square West, New York, N. Y.

Earle, Washington Square North, New York, N. Y.

Judson, Washington Square South, New York, N. Y.

Albert, 42 East 11th Street, New York,

Irving, 26 Gramercy Park South, New York, N. Y.

Berkeley, 20 Fifth Avenue, New York, N. Y.

Claridge, New York, N. Y. Woodstock, New York, N. Y.

Bellevue-Stratford, Philadelphia, Pa.

Le Marquis, 12 East 31st Street, New York, N. Y.

Wellington, 55th Street and Seventh Avenue, New York, N. Y.

Van Rensselaer, Fifth Avenue and 11th Street, New York, N. Y.

Chelsea, 23d Street and Seventh Avenue, New York, N. Y.

Kew Gardens Inn, Kew Gardens, L. I.,

Wauregan, Norwich, Conn. Crocker, New London, Conn.

The regular rates at these hotels range from \$2 to \$6 a day, depending entirely upon the accommodations.

It is hoped that other hotel systems and individual hotels will grant similar concessions, information concerning which will be furnished as soon as available.

GOVERNMENT TRANSPORTATION REQUESTS.

The attention of employees is invited to the following excerpt from Joint Circular No. 1 of instructions issued by the several railway passenger associations to railway ticket agents throughout the country, covering the manner in which Government transportation requests are to be handled by them.

4. The following should be observed in honoring United States Government transportation requests:

5. The holder of request should be required to identify himself as the person in whose favor the request is issued, as named therein by presentation of the Government document authorizing the issue of the transportation.

6. The request should be examined to ascertain that it has not expired by limitation before presentation, and if expired, it should not be honored

7. The contract and all coupons of tickets issued on all transportation requests must

be indorsed "Govt."

8. All requests honored must be stamped on back with office dater showing date accepted and the form and number of the ticket issued thereon should be inserted in the space reserved therefor. If more than one person is shown by name on the face of the request, all who are named should be required to sign the receipt.

9. Receipt in writing (not printed) in ink or indelible pencil must be secured for the transportation issued thereon in the space reserved for that purpose on the face of the request; the signature of the traveler must agree with the name of the person in whose favor the request is issued. If the person in whose favor the request is issued is unable to write he should be required to place his mark (x) in the space reserved for signature, which must be attested over his own signature as witness by the ticket agent

or conductor accepting the request.

 Tickets must be issued to the destination named in the transportation request, unless that destination is not listed in the Official Railway Guide as a station. If not so listed, ticket should be issued to the nearest station and a notation to that effect made on back of request over the signature of the ticket agent; if the destination is not listed as a station and information is not obtainable as to the location of the nearest station, ticket agent will communicate with proper representative of General Passenger Department for instructions.

11. Transportation requests must be honored for transportation only; in no case

must cash be advanced to the holder in exchange for a transportation request.

12. Transportation requests showing alterations or erasures should not be accepted. 13. All U.S. Government transportation requests call for tickets "at lowest rate" as shown on face thereof; a blank space is provided for the insertion of the route to be traveled. The instructions of all Government departments, bureaus and services provide that the complete route including initials of carriers and junction points must be inserted by the person issuing and countersigning the request.

14. If the route is shown on the request, ticket should be issued via the route

specified.

15. If the route is inadvertently omitted, ticket must be issued via a regularly authorized ticketing route via which the lowest fare applies, even though that may involve the traveler in delays and inconvenience, unless the passenger elects to pay, in cash, the difference in fares, in order to secure transportation via another route afford-

ing better service.

16. If the request calls for a ticket via a route not authorized for the issue of through tickets, the attention of the traveler should be invited to that fact and if he is unable to secure a properly routed request, the ticket should be issued via the authorized route conforming nearest to the route specified in the request, and via which the fare would not be higher than would be available via the route requested, had it been an authorized route of travel, and a notation to that effect made on back of the request, in the space reserved therefor, and in accordance with paragraphs 2 and 3 thereof, to which the signature of the traveler should be secured.

17. Transportation requests must be exchanged at ticket offices, except when presented at an office not supplied with the proper forms or at a nonagency station, in

which event train conductors will honor the requests as follows:

18. If the destination is a point on conductor's run, the request may be honored to destination without exchange and the passenger's receipt secured in the space provided.

19. If the destination is a point beyond the conductor's run, conductor will honor the request to the first station en route at which proper form of ticket can be issued, in the usual way, indorsing on back of request over his signature the points between which request was honored without ticket. When request is exchanged at an intermediate ticket office, the passenger's receipt should be filled out and signed to show

clearly that transportation was furnished from the point of origin as shown on request

and not from the intermediate point at which the ticket was issued.

20. When a request presented on the train, calls for transportation beyond the line of the initial carrier or beyond the train conductor's run and it is impossible to exchange it before reaching the station at which the traveler leaves the train or before reaching the end of the conductor's run, as the case may be, the conductor shall obtain a statement signed by the traveler, completely describing the transportation request and certifying the points between which the passenger has been carried thereon and the reasons why request could not be exchanged, such record to be turned in with conductor's train collections. After securing such signed statement, conductor should indorse on request over his signature the stations between which honored and return it to traveler, with request that it be presented immediately after leaving train to the ticket agent of the line on which the request is drawn and on which it was honored by the conductor, for exchange for a ticket to the destination named therein. Such request should not be honored by ticket agent of the connecting line, as payment thereon by the Government in that case would necessitate securing a waiver from the initial carrier on which it is drawn.

21. Not more than the authorized free allowance of personal baggage may be checked on each ticket issued on Government transportation requests, unless request calls for the transportation of excess baggage in which case the number of pounds excess checked

should be noted on back of request.

22. Bills of lading must be obtained for transportation of all impedimenta (not included in personal baggage) moved on troop trains or with detachments on passenger trains, according to freight classifications and tariffs effective at time of movement.

23. When transportation requests honored on trains call for the transportation of more than one person, or when a party ticket issued on Government transportation request is presented for passage, the actual number of persons carried must be noted on the request or ticket over the signature of the conductor. If a greater number of persons desire transportation than called for on the request, or the ticket presented, a certificate for the additional number in the following form must be secured from the officer in charge:

I certify that

I certify that

Note.—Special attention is invited to paragraph 5 of the above instructions. In order that employees may be in a position to identify themselves as authorized to use transportation requests, should ticket agents or railway conductors require identification, it is suggested that employees carry with them the bureau's formal letters of authorization, or letters of instruction on a bureau letterhead signed by an inspector in charge or other official directing them to travel.

COORDINATING SHIPMENTS OF MATERIAL AND SUPPLIES.

The attention of the field forces of the bureau is called to the following extract from Bulletin 7, Supplement 9, of the Chief Coordinator, and they are directed to cooperate as indicated, so far as possible:

In order that proper coordination may be effected between rail, water, and motor traffic in connection with the movement of Government material and supplies, the area coordinators designated in Bulletin No. 2, Office of Chief Coordinator, corrected to May 10, 1922, have been directed to obtain from the various Government activities located within their areas certain information in regard to motor transportation and lighterage, and to coordinate these activities as far as practicable in order that the Government may be enabled to utilize to the greatest possible extent its own motor

vehicles and lighters in handling Government materials between rail and steamship terminals and Federal depots, yards, and stations. At points where no Government-owned motor vehicles are available and where there are several Government activities, it is desired, wherever practicable, that but one contract be made to cover the handling of all Government stores between terminals and depots in that vicinity.

ROSTERS OF EMPLOYEES.

The item "Rosters of Employees," in Service and Regulatory Announcements for April, 1922, page 53, was not intended to apply to meat-inspection forces or to employees engaged on public stockyards work, but only to field forces doing disease-control work such as hog cholera, tick eradication, tuberculosis eradication, and scabies eradication, in rendering monthly rosters and assignment of official stations of employees on those forces. Inspectors in charge of meat inspection and others rendering monthly and semimonthly reports on M. I. Form 101 and V. S. Form 52 should pay no attention to the notice referred to above.
